

# THE GOLD NUGGET

October 2021

## The Prez Sez by Jim Long

It is nearly time for goblins and black cats and all that other spooky stuff. Halloween is fast approaching and so is the first snowfall of the year and freezing temperatures. Hopefully, you have done all the maintenance around your homes and with your vehicles so that you can get back to searching for gold.

With winter fast approaching, many of us will be making a last minute push to get in what prospecting we can before the cold and ice runs us off the creeks. That means that we will have plenty of time to address those containers of black sands and concentrates that I know some of you have been hoarding up this summer. All the good and skilled planners' I know have little to no black sands to clean up because they have already panned it all out. But there are many of us who are not so skilled at panning and those containers, small and large, have been accumulating. So now will be the time to get them done.

It seems that this is the time of year when I make my annual pitch to the Club members asking for folks to consider volunteering a little of their time to help the Club continue running. And this year is no different I guess than the many others since I have been elected your President. My time now is short but the need is no different. I know that there are plenty of you folks out there who are retired and certainly have the time that it takes to get further involved and help direct the Club in the future. There are openings on the Board and there is a need for replacements on the Membership Table, the Refreshment Table, and throughout all the positions of the Club. We should never accept the 'status quo' because it seems to be working for the moment. Change could come upon us at any moment. There are no guarantees in life but you can certainly be assured that there will be change. Change is a constant and surrounds us everywhere daily.

Sometimes, you hardly notice it and other times, the change can be startling. But change there is and change there will always be. Nothing in the universe ever stays the same. It is always evolving and changing and this Club will be no different, that I can certainly assure you. So I am hoping that some of you will take this to heart and consider stepping up for a turn or two. I can assure you that there will be plenty of guidance and assistance to help you do whatever job you choose to try.

I will soon be heading up the mountain to chase the wily bull elk again. The leaves will have fallen in the next couple of weeks by the time I get there and snow will have fallen on the tall peaks. The air will be frigid and frosty and there will be ice on the creeks. But it is an annual thing that I have done for 66 years now and I can no more not go no matter what my personal circumstances may be. I have no idea if I will be successful or not. To me, my hunting is like my prospecting. It is not so much any more about the 'having' or 'getting' as it is in the search, or the mere quest itself. It is about that time by myself in the quiet early morning as the world begins to 'wake up', when the birds start singing and the insects start buzzing, the call of the bugling elk, the scream of the mountain lion, the call of the canyon wren, the call of the loon, or the mournful howl of the wolf. Those rare sounds of nature that are relatively rare and exquisite, yet primal in nature. These are the sounds that not every person has ever heard before. They are the sounds that I yearn for deep in my soul. Those are the sounds that I liken to the thrill I experience when seeing gold in my pan each time, gold that has never been seen by any other human in the world, ever...!! Each experience is sure to stir the blood and bring a sense of wonderment and a deep appreciation for all the miracles of nature that surround us all the time if we but take the time to look and listen and take it all in. It do make my cup runneth over, it certainly do...! But I do intend to return in time for the October meeting and I hope to see some brightly carved pumpkins when I get back.

Anyway.... that is the view from here and I wish you all Good Luck in your endeavors, no matter what they may be...! And until we meet again, keep your sunny sides up and may the bottoms of your pans turn bright with that treasured 'Yaller Gold'...!

You may contact me at 303-452-6087 or at [jnslong945@msn.com](mailto:jnslong945@msn.com) . Happy and safe prospecting to all!

## The V.P. Corner by "Joe Fortunato"

Hello guys and gals, hope that you are all doing well. I am going to start out with an apology of sorts. I won't be able to make the October meeting. I will be in Nevada chasing gold with a friend from California. I thought we had a plan worked out that would have me leaving town after our meeting on the 20th. However, things changed on his end. Now I will be leaving on the 11th and returning on the 22nd. I hate to miss the meeting, but I can't pass up an opportunity to pursue those Nevada nuggets. We usually detect for six days on these trips, but this time we are planning on ten days of detecting. Our plan is to explore some new locations that we have been curious about for several

## Gold Prospectors of the Rockies Page 2

years. Our old haunts will definitely get visited again, but the lure of finding an undiscovered nugget patch is what keeps us coming back. I have included another picture with this month's article, I hope that it peaked your curiosity. It is another success story from Chris Porter in Nevada, and it's a jaw dropper. Have you ever noticed how difficult it is to determine the size of gold nuggets in a picture, when there is nothing in the picture to give it scale? Any easily recognizable object will do, a coin, a chap stick or even a book of matches. I am surprised that this picture is void of any such object. The only hint that I see is the texture of what appears to be a towel or wash cloth. How much does the big nugget weigh, half an ounce? Maybe three quarters of an ounce, it's hard to decide. Actually, the large piece weighs over ten troy ounces...! The other pieces weigh an additional seven troy ounces. This newly discovered patch yielded seventeen troy ounces of gold, and who knows what this location still holds. The lesson to be learned here, don't be shy when it comes to exploring new areas for gold. So until next time..... MAY ALL YOUR ADVENTURES BE.....GOLDEN !!!! Questions or comments..... Call or Text me at 303-263-7204. Joe Fortunato

## From the Treasurer/Secretary Ledger by Joe Kafka

The October Meeting will feature a nine (9)-nugget giveaway that will include up to a 2.5-gram nugget. We have a new "Special Nugget" as well. Be sure and bring extra cash for the nugget giveaways. The Club remains in the black and members may request to see the financial report at any time that I have at my desk in the back whenever we finally get to reconvene. Hope to see you all at the next meeting in October.!!

## 2022 Elections of Officers Coming Up By Joe Shubert Elections Chairman

Hi Everyone

**Nominations will be needed at the October meeting,** Elections will be in Nov. We have 5 people stepping down to include myself and 4 others. We have had 2 people step up and inform us of their desire to run for a Board position to date, and they will be great additions to the Board.

We need more to come forward. Fellow Club members, this is your Club. If people do not volunteer to run for the Board, it cannot continue to be a Club. The people stepping down have been board members for many years. Please step forward and let the President, Jim Long, or myself know so we can put you name on the ballot for the election. Nominations are needed at the October meeting. These positions actually take up less time than you would think they do and they can easily be learned. Don't be afraid to accept a little responsibility. It can actually be a lot of fun..!

## Board Meeting Minutes From Sept 2021

X	James Long		Joe Shubert	X	Joe Fortunato		John Johnson
	Mike Stevens	X	Joe Johnston	X	Chris Kafka	X	Brandon Luchtenburg
X	Joe Kafka	X	Bobby Manning	X	Andy Doll	X	Gary Hawley

**Quorum Present:** Yes.

**Call to Order by:** Pres Long at 6:13 pm.

**Reading and Approval of Minutes:** Corrections: none Approved as read/corrected: yes.

**Treasurer's Report:** Questions: none Approved: yes.

**Correspondence:** phone calls 1 emails 9 mail 2

### QUESTION OF THE MONTH

How many Karats is pure elemental gold?

## Gold Prospectors of the Rockies Page 3

**Webmaster:** Total hits 159629 Hits in last 30 days 199.

**Committee Reports:** B. Manning advised the Black Hawk Outing went well and they are still finding gold up there..! The Hylands Ranch Festival Panning Demo went well and was well attended.

**Unfinished Business:** Will still need to buy more gold soon. Pres. Long has several leads he is now working on.

**New Business:** JeffCo Open Spaces has assigned our Club to the Arapaho Bar Panning Park for the planned Trash Cleanup on Sept. 25. Each participant **MUST register at the following site** (<https://offero.us/ActivityRegistration/bfdb9b0-65de-436d-bf73-5330641307db> ) We will be parking at the Youngfield parking lot next to Camping World. After the cleanup, volunteers can go to Anderson Park at 4355 Field street in Wheatridge and partake in a free bar b que lunch.

No further new business to report.

**Planned Outings:** Next Outing is Sept. 18 in Black Hawk. This will be the last planned Outing for the year.

### **Board Members Items of Discussion:**

- Pres. Long discussed the upcoming elections and the lack of volunteers for the Board. There will be 5 outgoing and only 2 incoming at this point. We need to encourage others to step up for the coming year.
- BM Johnston requested that folks return any library items that are past due.
- There were no further Items discussed and the meeting was adjourned.

**Tonight's General Meeting Program:** We will feature a video titled 'The Secret Gold of Afghanistan'.

**Announcements:** Next Board Meeting 10/20/21 at **6:00pm**

Next General Meeting: 10/20/21 at **7:00pm**

**Adjournment:** Meeting stands adjourned at 6:50 pm.

### **2021 GPR Board of Directors Members**

#### **President**

James 'JJ' Long

#### **Vice President**

Joe Fortunato

#### **Secretary/Treasurer**

#### **2 Year Board Members**

Joe Johnston (2017)

Joe Shubert (2018)

#### **1 Year Board Members**

Andy Doll

Brandon Luchtenburg

John Johnson II

Bobby Manning

Chris Kafka

Mike Stevens

#### **Past President**

Gary Hawley

## **General Meeting Minutes From Sept 2021**

1. **Meeting was opened at 7:07 pm** by **Pres. Long** with the Pledge of Allegiance.
2. **Pres. Long** then announced that the evening Program would feature a video presentation titled 'The Secret Gold of Afghanistan'.
3. **Pres. Long** then gave the Metals Report: Gold 1559.50, Silver 18.12, Platinum 982.00, Palladium 1956.00
4. Rhodium 15,050.00.
5. **Web hits** for last month was 240.
6. **Treasurer Joe Kafka** reports that the Club remains in the black. Report is available for review for anyone who wishes to see it. We have a new 'Special Nugget' tonight so be sure to buy lots of tickets. It is a beautiful specimen from Alaska.
7. Also, don't forget to buy tickets for tonight's 9 nuggets drawing, the largest being 2.4 grams.
8. **Becki McConnell** from the Membership Table reported that we had 33 members in attendance. There was 1 guest also present. The total meeting attendance was 34.
9. **Pres. Long** read the 'Question of the Month', which was "...**What did Julius Caesar give from the spoils of war to each of his soldiers for their service in helping to defeat Gaul...?** The winners will receive an extra ticket to the gold nugget drawings later during the evening program.
10. **Pres. Long** advised that there was time to enter items at the break for the '**Finds of the Month**' table and that the monthly winners from tonight will need to be saved for the Finds of the Year competition in November, 2021. A reminder to all that their gold submissions need to be weighed dry and only one submission per person per category. Be sure to fill out the entry cards completely. Only finds found within the last 30 days may be submitted.
11. **John Olsen** announced the '**Cache Clue**' # 6.
12. **Pres. Long** advised that the Club Store had numerous items for sale. Be sure to drop by at the break and support your Club by buying something. We have sold out of our gold bags as of tonight and don't know when we will get some more gold.
13. **Pres. Long** informed the membership that the next Outings are as follow:
  - Sept 18 Sat **Prospecting Outing**, Blackhawk, 9am

## Gold Prospectors of the Rockies Page 4

- Sept 25 Sat **Trash Cleanup/Panning Demo** with JeffCo Open Spaces, see sign-up sheet. We have been assigned to Arapaho Bar Public Panning Park and we will park at the Youngfield parking lot next to Camping World. There will be a free bar b que lunch provided for all volunteers at Anderson Park at 4355 Field Street in Wheatridge at noon following the Cleanup.
14. There was a reminder to be sure to vote on the Finds of the Month and to answer the Question of the Month during the break.
  15. Members who check things out of the Club Library are reminded to return them promptly. Pres. Long also advised that elections were soon coming and there are five (5) outgoing Board Members and only two (2) Incoming at this time. It is time for some new folks to step up. Pres. Long will continue to do the Newsletter and will be available to help the new incoming members.
  16. 13. **Pres. Long** announced the break at 8:19 pm. Meeting was called back to order at 8:35 pm.
  17. 14. **Pres. Long** announced the winners of the ‘**Question of the Month**’. The answer was, “...**200 gold coins...**! There were 3 winners who received their extra drawing ticket for the gold drawing.
  18. 15. **Pres. Long** announced the winners for the ‘**Finds of the Month**’. Those were:
    - **Best Coin** – **Jack Meineke** with a 1941 Liberty dime he found in Jefferson County while metal detecting.
    - **Best Jewelry** – **Nancy Knerl** with a copper pendant she found in a parking lot in Westminster, Colo.
    - **Best Mineral** – **Kevin Singel** with a rhodochrosite specimen he found at the Homestake Mine in South Park, Colo. while on a tour there.
    - **Best Artifact** – **John Olson** with an old hotel tag, circa 1895, he found in Leadville, Colo., while metal detecting.
    - **Best Bottle** – There was no entry in this category for this month.
    - **Most Raw Gold** – **Roger Schlenger** with 1.4 gram of gold he found near Leadville, Colo..
    - **Largest Raw Gold** – **Roger Schlenger** with a 0.3-gram nugget he found on the GPR dig in August.
  19. **Pres. Long** concluded the evening with drawings for the numerous door prizes donated by the **GPR, Jack Meineke and Pres. Long**, followed by the drawings for the 16 door prizes and 9 gold nuggets. Pres. Long also wants to remind that holders of drawing tickets for the regular gold drawings who did not win and want to redeem those tickets may present them at the end of the Meeting and they will be reimbursed at .01 cents on the dollar, or they shall be considered to have been donated back to the Club. Those assisting in the drawings were **Joe Kafka and Chuck Cown**.
  20. **Pres. Long** reminds the members that sometimes during the meetings, The President’s time is overwhelmingly taken up by the many who wish to speak to him and he apologizes if anyone ever feels like he is unavailable. It is not his intent to be inaccessible and he encourages anyone with questions to contact him by e-mail or phone outside the meetings at any time. His e-mail and phone number are on the web site.
  21. **Pres. Long** thanked **Greg and Nancy Knerl** and all those who contributed to the Refreshment Table. Membership is encouraged to chip in and add to the spread each month. Don’t forget the ‘tip jar’ also, which helps to defray costs. This really helps the folks who run the table and those who volunteer up front each month. The Club appreciates the efforts that each and every one of you to make the refreshment table enjoyable.
  22. **The October Meeting Program** will be a presentation directed at Metal Detecting put on by **Joe Fortunato**.
  23. Having nothing further at this time, remember to prospect safely, live long and be grateful for that golden bounty from the stars, that gleaming magical miracle, called ‘gold’!
  24. Meeting was adjourned at 9:03pm.

**Don’t forget the Oct 2021 Pumpkin Carving Contest!!** Members are encouraged to carve a pumpkin for the October meeting and bring it to the meeting. Carve it with a mining theme in mind. We will award a nugget of gold to the top three (3) winners. There have been some amazing submissions in the past and I hope that this year will bring another great group of scary miner pumpkins. So get your pumpkin ideas going and bring your submission to the next meeting and you just may be the Grand Prize winner...! HAPPY HALLOWEEN...!!!

## Gold Prospectors of the Rockies Page 5

### A Miner's Laugh

Fred Gibbs was in his early 60's, retired and had started a second career in catering. However, he just couldn't seem to get to work on time. Every day he was 2, 3, 5 minutes late. However, he was a good worker, really clever, so the owner was in a quandary about how to deal with it. Finally, one day he called Steve into the office for a talk. Fred, I have to tell you, I like your work ethic, you do a top class job, but you're being late so often is quite a worry. 'Yes, I realize that, sir, and I am working on it.' replied old Fred. 'I'm pleased to hear that, you are a team player. It's odd though, you coming in late so often. I know you're retired from the Royal Navy. What did they say if you came in late there?' 'They said, "Good morning, Admiral".'

*(Taken from the internet and revised just for all us 'old miners')*

### The finds of the Month 2021:

The September winners were:

**Best Coin** – Jack Meineke with a 1941 Liberty dime he found in Jefferson County while metal detecting.

**Best Jewelry** – Nancy Knerl with a copper pendant she found in a parking lot in Westminster, Colo..

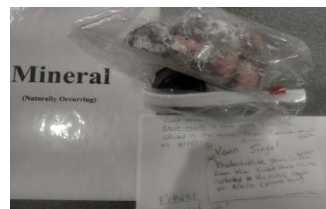

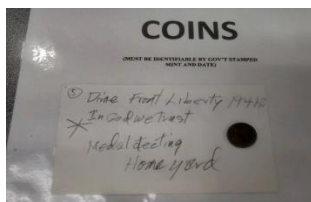

**Best Mineral** – Kevin Singel with a rhodochrosite specimen he found at the Homestake Mine in South Park, Colo. while on a tour there.

**Best Artifact** – John Olson with an old hotel tag, circa 1895, he found in Leadville, Colo., while metal detecting.

**Best Bottle** – There was no entry in this category for this month.

**Most Raw Gold** – Roger Schlenger with 1.4 gram of gold he found near Leadville, Colo..

**Largest Raw Gold** – Roger Schlenger with a 0.3-gram nugget he found on the GPR dig in August.

Be sure to bring any Finds that you have found in the last 30 days since the last meeting. Be sure to list the date that you found the item and the area you found it when you submit it. Each monthly winner must save your winning Find and submit it in **November** for the Find of the Year in each category.

**Notice:** The Board of Directors has approved the following for 2021: Any member who paid their dues for 2020 are paid up for 2021 and they do not have to repay. If you did not pay your dues in 2020, you will need to pay for 2021. 2020 was pretty much a bust so let's hope that we can have a much better 2021.... The Membership Desk has a list of who owe dues and will help you with that when you arrive.....keep in mind, your dues are what we buy the gold with that we give away each month in the drawings!!

## Hylands Ranch Festival Panning Demonstration

The Club operated a gold panning demonstration for the Hylands Ranch Festival on Saturday, September 11. Normally, this festival is a 3 day event but shut down in 2020 due to Covid and they only ran a one day event this year. The weather cooperated perfectly for us and we had a good time demonstrating how to pan for gold and our booth remains one of the top drawers at the festival each year. It was good to see some of the other regulars who are there every year and to know that they all fared well during the last year and a half. We had quite a few kids visit us and there was quite a bit of interest from the adults as well. It is not uncommon for us to get a few new members from these events when we participate. Many thanks to our skilled volunteers who manned the booth this year and included **Joe and Chris Kafka, Hank Innerfeld, Bobby Manning, Jack Meineke, Angela Yen and Frank Zahn**. These events never succeed without our volunteers. Photos by Pres. Long...

## September Prospecting Outing

We traveled up to Black Hawk again on Saturday the 18th of September for possibly our final day of playing in the dirt again for this year. The City of Black Hawk was doing some major construction on our access road into the property we dig on and we were forced to take a back road into the site. The detour provided no serious problem overall and everybody had a good time digging. The diggers then retired to the lower Clear Creek Canyon where **Leaders Bobby Manning and Jack Meineke** set up high bankers to run everybody's material. The weather was good and everybody is still finding gold. The Black Hawk construction up above us has interrupted the water flow in the upper ravines and they no longer carry any gold as a result of that. But there is still plenty of gold in the lower creek bottom. Of course, there is no running water in the gulch that we dig in which is why we go to the lower Clear Creek Canyon to run the material. If you haven't gone on these digs, you really ought to do it. The terrain is not really all that difficult and it is fairly close to the vehicles so it is not too hard for pretty much everyone. And

if you need assistance, there are always willing hands nearby to help out when needed. I was asked the other day if we were still getting any gold up there, so I have included a photo taken on the August outing from one of the members. This was his cleanup, so you can judge for yourself how his 3-hour effort went. I think the place is still plenty good, just saying...!!!! We are now approaching that time of year where any further Outings up there will strictly be determined by the weather. Simply put, if there is snow on the ground or the ground is frozen, we will discontinue the Outings. If the weather holds, we will possibly do another Outing in October. Stay tuned for further announcements. Photos by Bobby Manning

## Gold Prospectors of the Rockies Page 7

## JeffCo Open Spaces Clear Creek Trash Cleanup

On Saturday, September 25, The Club assisted the Jefferson County Opens Spaces with a trash cleanup of Clear Creek between McIntyre and Wadsworth. Our Club was assigned the Arapaho Bar Public Panning Park. There were more than 250 volunteers who partnered with JeffCo and the City of Wheatridge to accomplish this task. This is the second time that JeffCo has organized a Clear Creek Cleanup event. This event is to celebrate National Public Lands Day. There was a lot of garbage cleaned out of the watershed by a lot of hard working folks. After the event, everyone was invited to attend a free bar-b-que and music at Anderson Park at W. 44<sup>th</sup> and Field St. in Wheatridge where the Club had a Gold Panning Demonstration booth set up along with a number of other vendors participating in the event. A good time was had by all and photos were taken by Bobby Manning:

On behalf of Jefferson County Open Space and the City of Wheat Ridge we would like to thank you for all your hard work this past Saturday. You along with 239 volunteers hosted were able to clean 6.2 miles of the Peaks to Plains trail along Clear Creek. You helped to remove over 1,620 lbs. of trash, 600 lbs. of recyclable materials, spread 8 tons of crusher fines, planted 100 native trees and shrubs, spread 90 lbs. of native seed, and painted cotton wood trees with over 40 gallons of paint mixed with sand to protect them from beavers.

JeffCo Open Spaces has informed us that they may well do the Canyon again next year. If they do, rest assured that the Club will do our best to assist them in the endeavor.

## About Gold Jewelry

Throughout history, gold has been treasured for its natural beauty and radiance. For this reason, many cultures have imagined gold to represent the sun.

### Colour

Yellow gold jewellery is still the most popular colour, but today gold is available in a diverse palette. The process of alloying—mixing other metals with pure 24 carat gold—gives malleable gold more durability, but can also be used to change its colour.

## Gold Prospectors of the Rockies Page 8

White gold is created through alloying pure gold with white metals such as palladium or silver. In addition it is usually plated with rhodium to create a harder surface with a brighter shine. White gold has become the overwhelming choice for wedding bands in the US.

The inclusion of copper results in the soft pink complexion of rose gold while the more unusual colours such as blue and purple can be obtained from the addition of patinas or oxides on the alloy surface. Black gold for example derives its colour from cobalt oxide.

### Caratage

The weight of gold is measured in troy ounces (1 troy ounce = 31.1034768 grams), however its purity is measured in 'carats'.

'Caratage' is the measurement of purity of gold alloyed with other metals. 24 carat is pure gold with no other metals. Lower caratages contain less gold; 18 carat gold contains 75 per cent gold and 25 per cent other metals, often copper or silver.

The minimum caratage for an item to be called gold varies by country. In the US, 10 carat is the legal minimum accepted standard of gold caratage, 14 carat being the most popular. In France, the UK, Austria, Portugal and Ireland, 9 carat is the lowest caratage permitted to be called gold. In Denmark and Greece, 8 carat is the legal minimum standard.

### Fineness

Fineness is another way of expressing the precious metal content of gold jewelry, and represents the purity in parts per thousand. When stamped on jewellery, usually this is stated without the decimal point.

This chart shows some examples of the composition of various caratages of gold.

	Caratage	Gold(Au)	Silver (Ag)	Copper (Cu)	Zinc (Zn)	Palladium (Pd)
Yellow Gold	9k	37.5%	42.50%	20%		
Yellow Gold	10k	41.70%	52%	6.30%		
Yellow Gold	14k	58.30%	30%	11.70%		
Yellow Gold	18k	75%	15%	10%		
Yellow Gold	22k	91.70%	5%	2%	1.30%	
White Gold	9k	37.5%	62.5%			
White Gold	10k	41.7%	47.4%		0.9%	10%
White Gold	14k	58.30%	32.20%			9.50%
White Gold	18k	75%				25% (or Pt)
White Gold	22k	N/A	N/A	N/A	N/A	N/A
Rose Gold	9k	37.5%	20%	42.5%		
Rose Gold	10k	41.70%	20%	38.3%		
Rose Gold	14k	58.30%	9.2%	32.5%		
Rose Gold	18k	75%	9.2%	22.2%		
Rose Gold	22k	91.7%		8.40%		

### **Notes:**

The alloying metal compositions above are typical of those used by the jewellery industry to arrive at the colour/caratage combinations shown, but these are not the only ways to arrive at these combinations.

White gold compositions listed here are nickel free. Nickel-containing white gold alloys form a small/very small percentage of white gold alloys and generally contain other base metals such as copper and zinc.

The following are the common standards of fineness that are used:

.375 = 9 carat (England and Canada)

## Gold Prospectors of the Rockies Page 9

.417 = 10 carat

.583 (.585) = 14 carat

.750 = 18 carat

.833 = 20 carat (Asia)

.999 (1000) = 24 carat pure gold

Strictly speaking, 14 carat should be 583 ( $14/24 = .583333$ ), but most manufacturers have adopted the European practice of making 14 carat gold slightly over 14 carat. Thus, the fineness mark is 585 in most 14 carat gold jewellery.

Similarly, 24 carat should be 1.0 ( $24/24 = 1.00$ ). However, in practice, there is likely to be a very slight impurity in any gold, and it can only be refined to a fineness level of 999.9 parts per thousand. This is stated as 999.9.

Accepted tolerances on purity vary from market to market. In China, Chuk Kam (which is Cantonese for 'pure gold' or literally 'full gold') still comprises the majority of sales and is defined as 99.0 per cent minimum gold, with a 1.0 per cent negative tolerance allowed.
