## The Prez Sez

By Gary Hawley, President

The weather continues to be hot and there are a few afternoon thunderstorms that can catch you off guard. If you are working a stream, be aware of the potential for fast rising water due to storms. If you are in a stream and lightning strikes around the area, I suggest you head for your vehicle and wait it out. Colorado has a high amount of lightening caused deaths. BE CAREFUL OUT THERE!

**Jeff Mosteller** will be sharing information about panning demos for the remainder of the year. We are receiving some exciting requests for next year and Jeff will need your help to make these new events successful.

**Sue Lemieux** has secured a wonderful outing for August that you will not want to miss. Look for her article about this one.

## VP's Corner

By Jeff Mosteller, Vice President

Greetings,

We just got back from Breckenridge, it was the Panning Championship weekend. We have a new winner in the club. I'd like to congratulate Aaron Ingalls, a fairly new member to the club. Aaron took A Bronze in the Mens Competition on Saturday. At last check Larry Weilnau had secured a Gold Medal in the Mens as well as Shirley Weilnau had locking up the Womens comp with the Gold. Way to go gang.

We had a lot of fun in Idaho Springs, the crowd was different than what we usually get those people weren't the usual tourist crowd, we had a lot of folks visiting the booth that were more local and grew up in the mining district.

*(continued from The Prez Says on page 1)*

Kathy and I, and our sons and their families, spent a week camping in the Snowy Range area of the Medicine Bow Mountains in Wyoming. Days were warm and the evenings were cool enough to make sleeping a great experience. 'Course, having two grandsons always on the go made grandpa sleepy by 8:00. The kids had to leave by Saturday morning so Kathy and I had the camp to ourselves. We took a drive across the Snowy Range and were fortunate enough to see three moose along the roadside. We spent nearly a half hour taking pictures and watching the magnificent animals. It was the perfect ending to a perfect week.

Wow! The GPR Cache has been found! I gave the first of eleven clues September 21, 2005. The last clue given was on July 19, 2006. The Cache was found a couple days after that. Congratulations to the Cache "Finder", you did a great job of locating it. I do know of a couple members that were actively pursuing the Cache but it eluded them. At our meeting on August 16 I will explain each of the clues and hopefully the "Finder" will explain how he/she found the Cache. Incidentally, "Finder", you have one more clue to decipher...just for fun.

Remember to bring a friend or neighbor to a meeting.

Until next time: May the gold in your pan be worth the effort you put into finding it.

*(Continued from VP's Corner, page 1)*

Hopefully we generated some new members out of that event. We were in Idaho Springs at the behest of the Clear Creek Watershed District so we were able to give a good education on the impacts of small scale mining. We reached a milestone on the highest donations given to the club in a single event, \$110.00 over the 2 day period.

We had a almost miserable time in Golden at the Buffalo Bill day event in the Clear Creek History Park the heat was over 100 degrees for a time out there.

**Coming up.**

We have the Golden Arts and Crafts festival in the Clear Creek History Park on August 19th & 20th from 10:00 am to 4:30 pm. Last year we had 677 visitors to the booth over the 2 days, should be a busy one again this year. Thats it for August.

**September events:**

Sept. 2 and 3 in Central City Labor Day event, the usual place in front of Dostlal Alley on main street set up at 8:00 on Saturday event runs from when ever we finish set up to 4:30pm both days.

Pending event on the 30th of Sept. is at the Gilpin County Fairgrounds for the Gilpin County Commissioners this is still not set in stone we will have more information by the September meeting. That is all for September.

**October events:**

Still pending will be the Rock Ledge Ranch in Colorado Springs at the entrance to the Garden of the Gods on October 7, more on that as it develops. That should be the last of the "06" season for the Demo's. I want to again thank all of you that give of your time to make this happen. I just drive the truck, you are the ones who provide the magic.

I will announce some "Get in the creek" outings at the next few meetings, things are starting to settle down a bit.

See everybody later and be Safe out their,

**Jeff Mosteller**

**Arvada Gold Rush Tidbit**

The story of Arvada begins with the discovery of gold on June 22, 1850. A wagon train of prospectors, bound for California, crossed the Platte River just north of the confluence with Clear Creek, and followed Clear Creek west for six miles. The members of the wagon train rested for a day, and Lewis Ralston dipped his gold pan in an unnamed mountain stream. He found almost \$5 worth of gold in his first pan. The stream was later named Ralston Creek in his honor. This was the first gold discovery in Colorado, and one of the most significant events in Colorado history. At the time the find was not considered significant and the party continued on to the California gold fields.

In 1858, Ralston accompanied another group of prospectors back to the site of his 1850 discovery. Again, gold was panned from the stream in small amounts. Ralston became discouraged and soon quit the area, but the rest of the group continued prospecting and discovered richer diggings upstream along the South Platte. Early in 1859 rich strikes were discovered in the mountains along the upper reaches of Clear Creek and the Colorado gold rush began.

These two paragraphs were taken from the City of Arvada's website. Many cities in Colorado put historical information on their websites, and it's a great place to find history.
