Colder temperatures and a little snow. That is to be expected this time of year. However, the time change, though expected, is hard to get used to. I liked things the way they were. I had some daylight on the way to work and a little sun on the way home. Now I drive into the sun, again, and drive home in the dark. All my prospecting will have to be done on the weekends for the next several months. Come on spring time!

Jeff Mosteller reports having an excellent spring and summer with probably the largest number of panning demonstrations the club has had. This effort has brought in several new club members and presented our hobby to hundreds of people. Jeff will have year-end reports soon to help determine how we proceed with this endeavor next year.

A club cookbook is in the works. All club members will be invited to present a favorite recipe to be included in the cookbook. More information to come.

Joe Shubert will have election ballots at the November meeting. If you want to be considered for a Board position, contact Joe for more information. Joe will also have ballots for the Ken Barker Award. He will explain this award at the meeting.

Kathy Hawley has something special planned for the gold drawing so you don’t want to miss this meeting.

The November meeting is very important. We will have elections for President, Vice President, Board Members and the Ken Barker Award. It is also our last business meeting of the year. The following couple months will give the new officers a chance to settle in and assess their positions. Planning for club activities is an on-going process and new officers can expect to be fully involved from the beginning. This is your chance to assist in the direction of your club. Get involved! Run for office! Volunteer to help! We have a great club...because of you.

Until next time: May the gold in your pan be worth the effort you put into finding it. Gary
Elections
Joe Shubert

Hello GPR members,

It is that time of the year again. At the November meeting we will have the election of officers for 2007. If you have any nomination forms to turn in, please give them to me before the meeting starts.

November meeting is the time for the Ken Barker award nominations. I will have the nomination forms on the front table along with a container for them to be deposited into. The container will be well marked.

Qualifications for a nominee are as follows:

* A person incubated for this award must be a Club Member in good standing.
* Promotes gold prospecting.
* Promotes the Gold Prospectors of the Rockies.
* Participates in Club Activities.
* Anticipates the needs of the Club and does his/her best to fulfill those needs.
* Contributes to the success of the Club with his/her extra efforts.

EXCEPTIONS:

* Neither the President nor the Vice-President shall be eligible for this award.

With the above qualifications in mind please be thinking about who you would like to nominate for this award. On the form is a place for your email address, please fill this in so that I can contact you for information you would like to be put in a article in the January newsletter about the person if he/she is the winner of the award. The winner will be announced at the December meeting.

See all of you at the November meeting

Joe

Sue’s Sluice Box

Tour the Colorado History Museum

1300 Broadway, Denver.
Saturday November 18th
Guided Tour at 10:00am

Learn about Colorado’s fascinating history.
Featuring an extensive collection of western exhibits including artifacts, historic memorabilia, and vintage photos.

Group admission:

Adults and children over 12 years - $2.00
Seniors 65 and older - $1.00
Children under 12 - Free

Location: 13th and Broadway

Area Parking: Two blocks away from museum at 12th and Acoma, there is an all-day parking lot for $4.00 a day. There is also a parking garage at the southwest corner of 13th and Broadway (enter on 12th) for $1.00 the first hour, and $2.00 each additional hour.

Hope to see you there!!!!!!

P.s. Any questions, please call Sue at 413-668-6008

Notes from Last Month's GPR Meetings

"A Placer Mining Show-and-Tell"
Transcribed by Paul Nagy

Periodically, club members are invited to bring in and demonstrate some of their gold placering equipment. In that way we can exchange ideas for the benefit of all. Always there is something new and wondrous, or at least clever, and everyone goes away saying, "Well, that solves part of my problem." This evening's program was no exception.

Don Dixon featured a rocker box which can be operated in still water. This is no small deal in the arid western U.S. where water is often at a premium. The device oscillates pendulum-style while partly submerged. The reject material is cast off at the limit of each swing and the gold is retained by small riffles and carpeting. The device is ideal for those situations where we find a pay streak and then groan "Oh, if there were only more water!" Another big advantage is that it can be operated by one person. Also, the operation is easier than the standard rocker where each hand is doing something different. A truly novel idea!

Paul Nagy also prefers manual rather than motorized placering. He had two home-made sluice boxes. One was a plywood design copied from a publication in the club library. The other was a personal idea using furnace duct sheet metal as the trough and water deflector. The advantage of a home-made sluice is that the innards can be easily modified for different conditions. Of course, lower cost and greater creative satisfaction are factors, too. He also had a version of bucket classifier which he calls a "Barker Bucket" after Ken Barker, who suggested the idea to him. It is a far easier method of rejecting oversize material before panning or sluicing. Also, red flagging tape tied to your hand tools will help keep you from losing them.

Aligning a sluice is always a chore, but Allen Mershon demonstrated that by using a hand level and a marker pen, you can put reference marks on the walls of the sluice which will shorten your set-up time. When the water level in the sluice aligns with the marks, then you have the right depth and angle. Allen proves that it is often the most obvious which eludes us.

Jeff Mosteller demonstrated his roof gutter clean-up sluice. He showed that even very fine gold can be separated from impurities. A battery powered bilge pump supplied an even water flow through the sluice. The reject material is captured in a bucket so that if you screw up you can recycle the stuff. Jeff shows again that home-made gear is often better than the store-bought "engineered" variety. Nice going, Jeff!

Gary Hawley had a battery powered spiral gold-wheel. Now there are often cases where the equipment is just fine--except not easily transportable to where you need it. Gary had this down pat. The gear broke down into pieces which could easily be accommodated by a special backpack which he bought and customized for the purpose. That is using the old noodle! A nice feature of this gold wheel is that it can be operated manually for those times when the bunny rabbit does NOT keep going and going.

Allen Mershon had the King Kong version of gold wheel. With a capacity of 500 lbs per hour, this is big league! Feeding that to capacity requires a lot of ambition, or a lot of friends, or a lot of enemies (at gunpoint). We see from all this that club members have very different ideas about pursuit of the yellow metal. Some go at it hammer-and-tongs and move tons of material every time out. Others are pleased to sit on a rock in a gentle stream and manipulate a gold pan. Others are in between. It has been said that the gold is a perk. We think that the club has succeeded because there is something for everyone!

Gold Prospectors of the Rockies
Board meeting of November 2006

Gary Hawley  Mike Barker  Jeff Mosteller
Donna Mosteller  Kathy Hawley  Joe Shubert
Paul Nagy  Terry Weatherly  Sue Lemieux

Quorum present? Yes.

Call to order. Meeting was called to order at 6:33 p.m. by Gary Hawley.

Reading and approval of minutes. Read by Gary Hawley.

Corrections: None.

Approved as read/corrected? Yes.

Treasurer's Report. Read by Gary Hawley.

Questions: None.

Accepted? Yes.

Correspondence. Newsletters from other clubs and advertisements.

Committee Reports: Read as presented.

Sue Lemieux – Cover design contest for Club Cookbook. On going.

Hank Innerfield – Club clothing table. On going.

New Business: Joe Shubert – Election information and Ken Barker Award.

Planned Outings: October 21 – 1:00-4:00 – Castle Rock – Panning demo.

Announcements:
Next board meeting November 15, 2006, at 6:00 P.M.
Next general meeting November 15, 2006, at 7:00 P.M.

Adjournment: Meeting stands adjourned at 6:53 P.M.
7:07 Meeting called to order by President Gary Hawley. Pledge of Allegiance led by Prez Hawley and VP Jeff Mosteller.

7:08 Metal prices discussion. New treasure! Additional grandchild for Gary and Kathy Hawley!

7:11 Membership report by MaryAnn McCrea: 117 individual and family memberships. One new member: Joe Carter. Welcome, Joe!

7:12 Introduction of guests: Kurtis Adkinson, Robert and Leanne Larson. Come again and join the club!

7:15 VP's report by Jeff Mosteller. We got a 2 1/2 minute segment on the 5 PM Sunday news on Channel 9 with newscaster Nick Carter. We will try to get a video of it to show to those who didn't see it. Thanks to those who helped out at the panning demo at Rock Ledge Ranch. The park was unexpectedly crowded with people and we were swamped, with long lines at the panning tubs. By the end we were near exhaustion. But we introduced 479 people to the fine art of gold panning and got the usual satisfaction of showing folks an important part of their heritage. The final demo of the year will be at the Castle Rock Grange. We are known as the best panning instructors around because of our fine equipment and individual approach. We could do many more demonstrations if we had more help from the membership. Please consider this for next year.

7:22 Shirley Weilnau asks the question of the month and later awards prize tickets to correct answerers.

7:23 There are road closures for rock stabilization in Clear Creek Canyon. Check with the Colorado DOT before planning your prospecting outing there. As always we are soliciting suggestions for what else the club can do. You talk, we listen!

7:25 Joe Shubert asks for nominees for the Ken Barker Award.

7:29 Election time is near. If you would like to be an officer or board member, let us know. We will help you.

7:30 Recess.

7:48 Program: "A Placer Mining Show-and-Tell."

8:18 Audience invited to see the equipment on display.

8:37 Joe Johnston - finds of the month.

8:39 Prize drawings, then adjourn meeting.

Gold

One Troy lb (pound)=12 troy ounces
One troy oz=20 pennyweight (dwt)
One troy oz=480 grains
One troy oz=33.3 grams
One pennyweight = 24 grains
From the Ledger
of Kathy Hawley, Treasurer

Thanks to Joe Johnston, Leroy Lamgo, and Ed Finney for their donations to the members only drawing prizes.

The November meeting is our elections for 2007. I will have special gold at this meeting. All I will say is, I have never done this before. So, you will have to attend the meeting to find out what is so unique about the gold that will be given away.

So like I always say, come prepared to buy some extra tickets and Good Luck!!

Food for Thought

Hello to all - many thanks go out to LeRoy Lamgo for the donuts, to Susan Duncanson for the wonderful brownies and to Mary Kathrens for the super cookies. Your "goodies" are always welcomed and appreciated.

See everyone in November. Jackie and Michael

Denver

Denver has 300 days of annual sunshine, more annual hours of sun than San Diego or Miami. The sun feels warmer because you’re closer to it.

Colorado is the third fastest growing state in the last decade.

Denver International Airport is the sixth busiest airport in the United States and the 11th busiest in the world.

Denver is the second most educated city in the United States.

Denver boasts the largest city park system in the country, 90 golf courses and 650 miles of paved trails.

Denver is home to the second largest performing arts complex in the nation with 10 theatres seating 10,000 people for theatre, symphony, opera and ballet.

Denver brews more beer than any other city with 80 different beers brewed here daily.

With less water vapor in the air at this altitude, the sky really is bluer in Colorado.

In Denver’s rarified air, golf balls go 10 percent farther. So do cocktails. Alcoholic drinks pack more of a punch than at sea level.

There are 200 named peaks visible from Denver, including 32 that soar to 13,000 feet and above. The mountain panorama visible from Denver is 140 miles long.

The dome of the Colorado State Capitol is covered with 200 ounces of 24K gold, but the really priceless building material was used inside as wainscoting. It is Colorado onyx, a rare stone found near Beulah, Colo.

The entire world's supply was used in this building and no more has ever been found. State law prohibits building any structure that would block the view of the mountains from the State Capitol.

The 13th step on the west side of the State Capitol building is 5,280 feet – exactly one mile above sea level.

Denver hosts one of the world’s largest rodeos – the National Western Stock Show & Rodeo.

Colfax Avenue is the longest continuous street in the United States (26 miles).

In 1944, Louis Ballast grilled a slice of cheese onto a hamburger at his Denver drive-in restaurant and patented the invention as "The Cheeseburger." The ice-cream soda, shredded wheat and of course, the Denver Omelet were also invented in Denver.

It was on top of nearby Pikes Peak in 1893 that Katherine Lee Bates was inspired to write the words to "America the Beautiful".

The mountainous area of Colorado is six times the size of Switzerland and contains 9,600 miles of fishing streams, 2,850 lakes and more than 1,000 peaks two miles high.

In hopes of gaining political favors, local boosters in 1859 named the frontier mining camp on the South Platte River "Denver" after Kansas Territorial Governor James Denver. They never received any favors - by the time they named the town, Denver had already resigned. It was years before James Denver saw the mining camp named after him. He was reportedly not impressed.

There were originally three separate towns on the current site of Denver, with three different names. In 1859, in return for a barrel of whiskey to be shared by all, the other names were dropped and the tent and log cabin city officially became "Denver".

Denver is one of the few cities in history that was not on a road, railroad, lake, navigable river or body of water when it was founded. Denver just happened to be where the first few flakes of gold were found in 1858 and it was here that the first camp was made. The first permanent structure was a saloon.

The Native Americans warned early settlers not to build there, but no one listened. In its first few years, Denver was destroyed twice, by fire and flood.

In its Old West days, Denver had a performance of Macbeth before it had a school or a hospital. That performance took place in a saloon.
MEMBER CLASSIFIEDS

SPEEDAIRE COMPRESSOR FOR SALE
New Speedaire Compressor, 3PH-5HP, 80-gal tank, upright. Current model price is $1,788; will sell now for $950. Contact Rose Ann or Jon Knight, (303) 450-0580 or (303) 252-1759

This copyrighted newsletter is the official publication of the Gold Prospectors of the Rockies (GPR), PO Box 621988, Littleton, Colorado 80162-1988, a non-profit organization of families dedicated to gold prospecting. Membership in the GPR is $40 the first year and $30 each subsequent year for an individual or family and includes a one-year subscription to The Gold Nugget, one name tag, and membership cards for all family members. Additional badges may be purchased. We meet at the Lloyd G. Clements Community Center, 1580 Yarrow St., Lakewood, Colorado, on the third Wednesday at 7:00 p.m. sharp to educate members about gold prospecting and gold prospecting rules, review old and new products, coordinate outings, participate in drawings for door prizes and nuggets, socialize with like-minded friendly folks, and promote the pursuit of gold. Single issues are $3.00 per copy (postpaid).
